The most compact and elegant security system from ELDES

Pitbull Alarm PRO

Pitbull Alarm PRO is a professional alarm system, integrated into a motion sensor. You will enjoy an extremely fast installation and configuration, breakthrough wireless range and a simple connection to majority of monitoring stations.

The solution has a built-in temperature and motion sensors, wireless/GSM/GPRS modules and it's a perfect fit for smaller installations. Pitbull Alarm PRO can work as a standalone device or operate with up to 16 ELDES wireless devices.

MAIN FEATURES

- 2x Nano SIM cards for extra safety
- Operates up to 34 zones (16 wireless devices)
- Multiple ways of control
- Wireless range up to 3 km in open areas
- Wired 1*input, 1*output
- Audio indication via built-in buzzer
- LED indication of system status
- Backup battery, up to 24h

For apartments and small houses

Ideal for areas of up to 150m²
(i.e. for flat, summer house, garage, pantry, camper, yacht etc.)

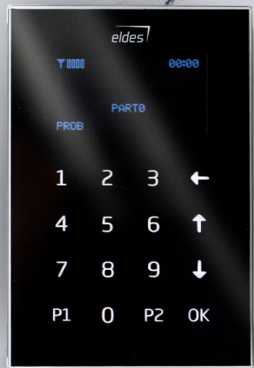

Free of charge periodical updates and new features

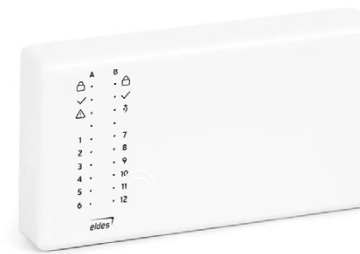

The most compact and elegant ELDES security system

Accessories

Keypads

Wired LED keypad EKB3

EKB3 is a wired LED keypad. Attractive design meets convenience. It is compatible with ELDES alarm and control systems.

- Arm/disarm feature
- Enter and change passwords
- Input administrative commands
- Integrated sound signaler
- 4 partition status indication
- Up to 48 zone indication, 12 zones per partition.

Wireless LED keypad EWKB4

A compact, battery powered keypad, ideal for remote premises: garage, pantry, sauna and other.

- LED indicator for visual guidance
- Status of zones display
- Customizable zone number indication
- Audio indication via built-in buzzer
- Battery life up to 6 years
- Wireless range up to 3km in open areas
- Built-in temperature sensor
- Additional wired zone for third party detectors

Lithium battery

Wireless

LCD keypad EKB2

Modern and stylish keypad perfectly fits to any home interior. Soft buttons and informative LCD screen ensures the maximum level of user comfortability.

- Quick control of your smart home with any 10 different numeric buttons of keypad
- Informs about temperature, GSM levels, zone status and system faults
- Touch sensitive buttons
- Backlit LCD graphic display

Wireless sensors

Lithium battery

Wireless

Door contact & Window sensor EWD3

Senses vibration and measures temperature. EWD3 can be used as a transmitter for third party wired sensors.

- LED indication
- Additional wired zone for NO/NC, EOL and flood sensor
- Wireless range up to 3 km in open areas
- Battery life up to 5 years
- Adjustable vibration sensitivity

Lithium battery

Wireless

Motion Sensor EWP3

Pet-immune PIR detector with integrated temperature sensor.

- 90° detection coverage, maximum detection distance up to 11m
- Pet-immune, up to 40 kg
- Wireless range up to 3 km in open areas
- Battery life up to 3 years

Lithium battery

Wireless

Smoke Sensor EWF1

Detects smoke before it bursts into flame. Interconnected alarm will notify whole premises at once.

- Built-in LED indicator
- Integrated siren (85dB at 3m)
- Photoelectrical sensor
- Wireless communication range up to 150 m in open areas
- Battery operation time up to 18 months
- Built-in temperature sensor

Sirens

Lithium battery

Wireless

Outdoor siren EWS4

Louder, stronger, bigger EWS4 is a perfect add-on for ELDES security system. It alerts about danger with deafening alarm noise and bright LED lights.

- Battery life up to 5 years
- Wireless range up to 3 km in open areas
- Sound level 104-110 dB
- Resistant to water and dust
- Space for partner's logo
- Optional wired power up

Wireless

Indoor siren EWS3

- LED indicator
- LED and sound indication differs depending on the type of alarm (fire alarm, intrusion alarm)
- Sound level: 90 dB

Wired Sensors

Flood sensor EFS1

- EFS1 is a flood sensor that works with wireless magnetic door sensor EWD3.
- EFS1 is designed to cause an alarm if a flood sensor is triggered.

KeyBoB - probably the best key fob for your smart home control!

We are introducing you the newest masterpiece from ELDES. Meet KeyBoB – your new friend for your smart home security and control, which comes in 3 different colors to express your uniqueness and is extremely soft to touch.

Be different. Express your uniqueness

Available in 3 different colors:

The champion in 1.7 km distance

Reveal the unseen radio communication range of up to 1.7 km.

Love at first touch

Covered in soft rubber coating and is extremely nice to touch.

LTC: a revolutionary ELDES technology

ELDES LTC (Life Time Charge) technology enables the battery of KeyBoB to work for 10 years or more.

ONE FOR YOUR SMART HOME CONTROL

Enjoy 8 configurable smart home actions with your new ELDES KeyBoB. Control the lights, temperature or grass watering system at home, open or close garage doors, blinds or gates. For your entire family safety, use our new key fob as a panic button with the exclusive – 1.7 km wireless distance. Empower your imagination and control any function of your smart home depending on your needs.

ELDES Utility - Free professional software for installers

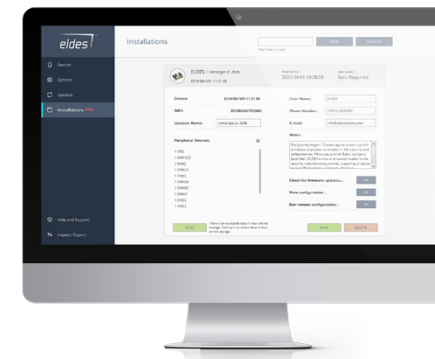

Professional software for installers, developed from the feedback of our customers. ELDES Utility is designed for extremely fast installations and convenient system maintenance. The innovative software contains optimized user interface, system pre-configuration and other time-saving features.

Eldes Utility allows to configure the security system in one place. Add/remove users, assign individual partitions, remove wireless devices and most importantly, fully configure Eldes security system with all it's accessories.

- One tool for all installations
- Time saving
- ELDES Utility Wizard - for your comfortable 1st installation
- Availability to configure and administrate remotely
- Free of charge.

Available on:

Enjoy an updated and even more user-friendly ELDES Utility software! With Installers Area tool, you can now manage your objects more conveniently, having all your ELDES installations and other relevant data in one place. Do you want to find your previous installations? Just connect to their configuration locally or remotely and you are done!

ELDES Utility is improved with a new Promotions section, to keep you informed about our latest news, upcoming events and relevant promotions taking place in your country! You don't have to check different websites or visit your partners to find out the information you need. Just open ELDES Utility, click on the banner you are interested in and you will see more information right away.
