

EFS1

Flood sensor

What is it?

EFS1 is a flood sensor that works with wireless magnetic door sensor [EWD2](#). EFS1 is designed to cause an alarm if a flood sensor is triggered.

Compact size suitable for shallow door frame and allows to install the device precisely on spot needed.

A multifunctional [EWD2](#) can be also used as magnetic door contact, shock sensor or digital sensor, warning of flooding or breakdown threat.
