SARIX© MODULAR CAMERA

| 3 MP | 5 MP | 5-YEAR WARRANTY |

The Sarix® Modular camera is Pelco's smallest and most discreet video security solution with built-in analytic capabilities. Specifically designed for areas with limited space or that require an unobtrusive monitoring solution, such as ATMs, police interview rooms, retail checkout counters, building entrances or casino gaming tables. The camera's adjustable imager modules can be used together or separately, and can be flexibly positioned in different locations and orientations to help capture the most optimal view of people or scenes of interest. Equipped with Pelco Smart Analytics, powered by Motorola Solutions, this camera helps to detect critical events and increase your security teams' productivity by expediting real-time responses and forensic investigations.

FEATURES

SMART ANALYTICS, POWERED BY MOTOROLA SOLUTIONS
Detects and classifies more objects for greater accuracy and faster responses, even in crowded scenes.

H.264 & H.265 WITH SMART COMPRESSION TECHNOLOGY
Optimizes compression levels for regions in a scene to help maximize bandwidth savings and keep storage costs down.

WIDE DYNAMIC RANGE
Captures high-quality image details in scenes with dark and light backgrounds.

ONVIF ® COMPLIANT
ONVIF Profile S, G and T compliance allows for easy integration with existing ONVIF infrastructures. Integrated with Pelco VideoXpert and other leading video management systems.
ONVIF is a trademark of Onvif, Inc.

LOW-PROFILE & EASY-TO-INSTALL
Reduce installation times with lightweight, interchangeable form factors that can be mounted in practically any setting, including tight spaces and discreet applications such as behind false walls or ceilings.

DUST & WATER RESISTANCE[1]
IP66 rating for resistance from dust and water.

CUSTOMIZABLE DESIGN
One or two imager modules can be connected to the main unit. Imager module options provide for flexibility to meet custom use case requirements. Imager modules connect to the main processor unit by detachable cables and establish an encrypted high speed connection. Imager modules can be mounted in a variety of orientations and discreet locations to help capture the most optimal coverage of people or scenes of interest.

ANALYTICS SPECIFICATIONS

SUPPORTED ANALYTICS EVENTS*	
Objects in Area	The event is triggered when the selected object type moves into the region of interest.
Object Loitering	The event is triggered when the selected object type moves into the region of interest, then stays for an extended amount of time.
Objects Crossing Beam	The event is triggered when the specified number of objects have crossed the directional beam that is configured over the camera's field of view. The beam can be unidirectional or bidirectional.
Object Appears or Enters Area	The event is triggered by each object that enters the region of interest and can also be used to count objects.
Object Not Present in Area	The event is triggered when no objects are present in the region of interest.
Objects Enter Area	The event is triggered when the specified number of objects have entered the region of interest.
Objects Leave Area	The event is triggered when the specified number of objects have left the region of interest.
Object Stops in Area	The event is triggered when an object moves into a region of interest and then stops moving for the specified threshold time.
Direction Violated	The event is triggered when an object moves in the prohibited direction of travel.
Sabotage Detection	The event is triggered when the scene unexpectedly changes.

ORDERING INFORMATION

The variety of mounting options for the Sarix Modular provides maximum flexibility to combine different imager modules and cable configurations.

MAIN UNIT	IMAGER MODULES	REQUIRED ACCESSORIES
 Sarix Modular Camera Main Processor Unit (IDL0-PU2)	Order up to two imager modules per Main Unit, any combination of the following: Sarix Right Angle Imager (IDL303-PHI) Sarix Micro Bullet Imager (IDLx02-FXI)	Order one cable for each imager module: • CBL2M-1001 (2 m) • CBL5M-1001 (5 m)

IMAGER MODULES

With the modular design of the Sarix Modular, either camera module can be connected to the Sarix Modular Camera Main Unit for maximum versatility and optimal installation.
